The BEST Baby Nail Clippers

Submitted by 3girlsmom on Wed Jan 02, 2008 10:36 am

I discovered simply the BEST baby nail clippers. They are called "Baby Light and Clip Nail Clippers".

They have a built in light to show you which parts of the babys nails are safe to clip. In addition, there is a safety guard that prevents the babies fingertips from going inbetween the blades. I just love it and wish I had discovered it with my first two girls, who run when I pull out the nail clippers. 😊

You can get in online at <http://www.babylightandclip.com/>
