Lighted Nail Clippers

Accessories, Grooming, Health, Safety No Comments »

Have you ever been afraid to cut your baby's nails because you just can see his or her little fingernails well enough? I know I have had that fear. Well, worry no more! Check out the Baby Light and Clip!

The new and unique lighted nail clipper illuminates from under baby's tiny nail, taking the guesswork out of where to safely clip.

Features include safety guards that helps prevent a tiny fingertip from going in between blades, a nail clipping tray which prevents clippings from falling into baby's bedding, a comfort control handle for easy holding and maneuvering and a travel case perfect for moms on the go!

Recommended price \$14.99 at BabyLightandClip.com.
